## Section VI – Health Hazard Data Skin? YES Ingestion? YES Route(s) of Entry: Inhalation? NO Health Hazards (Acute and Chronic) Foam material is essentially non-toxic and non-allergenic in normal usage. It is recommended that oral ingestion of this product be avoided. Vapors may be produced if product is exposed to high temperatures (130°C/265°F) or open flames, which may irritate the eyes, nasal passages or lungs. Dust generated by processing may be irritating. IARC Monographs? OSHA Regulated? Foam material is not known to be carcinogenic. Signs and Symptoms of Exposure None Known. Dust may cause mechanical irritation of the eyes. Medical Conditions Generally Aggravated by Exposure None known. Emergency and First Aid Procedures: Under normal usage, exposure will not require treatment. If exposed to fumes or smoke from thermal decomposition, remove to fresh air. Administer artificial respiration if not breathing. Flush eyes with water for 15 minutes in case of contact. If skin irritation develops, was thoroughly with soap and water. If indested, call a physician. Cases requiring first aid should seek medical attention as soon as possible. Provide a copy of the MSDS to the Physician. Section VII - Precautions for Safe Handling and Use Steps to Be Taken in Case Material is Released or Spilled Sweep up or collect spilled material. In case of a water spill, the product floats and can be retrieved. Recover smaller particles by filtration. Collect for disposal or recycling. Waste Disposal Method Dispose of in compliance with Federal, State and Local regulations. Both cutting scrap and post consumer scrap may be recycled under some circumstances. Precautions to Be Taken in Handling and Storing Foam material is combustible. Foam material should be stored and handled away from open flames or abnormally high temperatures. Other Precautions

## Section VIII - Control Measures

Respiratory Protection (Specify Type)

Respiratory protection not normally required. If warranted, respirators and usage must conform to 29CFR1910.134 requirements.

Ventilation	Required if foam material is processed unde melting or flaming conditions.	er		
	Mechanical (General) YES	Other		
Protective Gloves Must meet 29CFR1910.138 for processes involved.		Eye Protection Must meet 29CFR1910.133 for processes involved.		
	Clothing or Equipment			

Other protective clothing or equipment should be appropriate to the processes involved.

Work/Hygienic Practices

Observe good industrial hygiene practices.
